Xia Cui – Neurology Department Navy General Hospital

Effects of Diversified Nursing Rehabilitation Training on Quality of Life and Motor Function in Stroke Patients

Haiyun Fang, Yuanrong Wu, Miaohong Chen, Manxuan Shen, Zhixin Lin - The First Affiliated Hospital, Sun Yat-sen University

To explore the training mode and training effect of geriatric specialist nurses in Guangdong Province

Lian Fang, Jiehui Feng - The First Affiliated Hospital of Medicine, Zhejiang University

ECASH-based multi-mode analgesia and sedation scheme Evaluation of the Effect of Mechanical Ventilation in ICU

Second Prize:

Jing Yang, Hua-lian Wu, Xuan Xiao, Rui-yu Huang, Cheng-qin Fu, Ming-tao Quan – Affiliated Hospital of Zunyi Medical College

The effect of early progressive bed exercise to the muscle strength and self-care ability of elderly patients in ICU

Yanna Cai, Yanhong Zhu, Ruimin Bai – The First Affiliated Hospital of Zhengzhou University

Association between Psychological Stress and Male Semen Quality: A Meta analysis

Yun Han, Yu-hong Xu, Xinhua Ye, Xiaona Li, Ping Yang, Yan Wu, Liye Chen, Haili Wu – Changzhou No. 2 People's Hospital, the Affiliated Hospital of Nanjing Medical University

Based on the "Internet +" concept of chronic disease management model in patients with type 2 diabetes mellitus

Xuemei Xian, Weilan Xiang, Wenli Shi, Binbin Huang – Sir Run Run Shaw Hospital, Zhejiang University School of Medicine

Testing solution focused therapy to Decrease Fatigue of colorectal cancer Patients during chemotherapy

Lili Yang, Xue-mei Xian, Xiao-fang Jiang, Ying Qian, Yue-dan Qu - Sir Run Run Shaw Hospital,

Zhejiang University School of Medicine

Effects of Teach-back Training Program Based on Teaching Process on Clinical Nurses Health Education Competency

3rd Prize:

Hongyan Zan – Shanxi Dayi Hospital

To investigate the clinical effect of process optimization on reducing Door-to- Needle Time (DNT) in patients with Acute Ischemic Stroke (AIS)

Zheng Zhang, Chun-yi Gu, Li Li, Xiu-hong Wang, Xin-li Zhu, Zhi-fang Cai –Obstetrics and Gynecology Hospital of Fudan University

To understand the clinical practice behavior and definite the role function of subspeciality nurses in department of gynecology and obstetrics

Yuejiao Zhao, Li Huang, Jian-feng Zhang, Yan Ding - Obstetrics and Gynecology Hospital of Fudan University

Preliminary Establishment of Indicator System for Midwifery Quality Evaluation Guided by Evidence-based Theory of Midwifery Quality

Yinqi Xiao, Yanhua Chen, Shengmin Guo, Shifang Mao, Jing Li, Xiaolei Zhao, Silin Zheng -

Development of pattern of clinical practice indicators for the incorporated education of master of nursing specialist and specialist nurse

Hongyang Hu, Huiping Wei, Hongyan Liang, Aini Li, Jin Qiu, Huixia Zhang, Dingying Wu, Hongying Pan, Yueying Gu, Zhihong Ye - Sir Run Run Shaw Hospital, Zhejiang University School of Medicine

To evaluate the clinical outcomes in peritoneal dialysis (PD)patients who received standardized retraining in The First Affiliated Hospital of Zhe Jiang University,thesecond largest center in China

Peipei He – The First Affiliated Hospital, Zhejiang University

The application of homemade urinal pocket with leg covers in urology stoma patients nursing –

Feixia Wang - The First Affiliated Hospital, Zhejiang University

The application of homemade urinal pocket with leg covers in urology stoma patients nursing

Li Wei, Hong-ying Pan, Chen Huang, Jia-mi Lin, Ting-ting Wang –Sir Run Run Shaw Hospital, Zhejiang University School of Medicine

Analysis on the construction of closed-loop management of breast milk in NICU based on HIMSS7

Huifang Xu, Juan-juan Ni, Qiong Ye – the 2nd Affiliated Hospital, Wenzhou Medical University

Effect of high quality breast feeding nursing program on postpartum breast syndrome and HAMA, HAMD score

Outstanding Award:

Zuqing Rui, Ping Wang, Jinfeng Xu, Xiaohong He

To explore nursing effect and nursing methods of NPPV in early PR training for the patients with COPD in acute aggravating period for fast recovery

Dongli Bai, Xiaoting Ho, Xinlan Zhang, Yan Li, Li Ren, Fang-fang Ren

The cognition and training needs of breakthrough pain among oncology nurses: a cross-sectional survey

Qunqun Li, Hongying Pi, Zhongxin Wang

Application of exercise prescription in the perioperative health education of patients undergone laparoscopic partial nephrectomy

Hongmei Ren

To observe the effect of modified nursing pathway in thrombolytic therapy in patients with ST-segment elevation acute myocardial infarction

Bo Ao, Yu-ling Lang, Nin Kang, Ya-feng Yu

The relationship between head nurses, coaching leadership behavior and psychological empowerment of nurses

Xiu Liu, Jianjun Yan, Jiang-bo Li, Rui Yang

Research the application value of dynamic venous pressure monitoring in the prediction of the stenosis of internal fistula in patients with hemodialysis

Cui-e Peng

The discharge plan pattern was applied in breast reconstruction after breast cancer surgery

Zeya Shi, Wan-qing Hu, Qiu-hong Tan, Xiaoping Xu, Jiping Yang

Advantages and challenges of the development of newly recruited nurses in the hospital in the moocs era

Qian Zhou, Ya-qing Geng, Jie Di, Yuhong Xu

Research into the influence of an instrumental rehabilitation exercise by different exercise intensity for patients with ICU-AW

Ruoying Cheng, Jie Xu, Yan Hong

Qualitative study on information communication in operating room teams

Qiyun Wu, Shi-ping Feng, Qing Cao, Jia Liu, Yu-hua Zhang, Ming-hong Chen, Yue-qing Zhu

Analysis on status of structural empowerment and psychological empowerment of midwives among 15 hospitals in Suzhou area

Qiyun Wu, Shi-ping Feng, Yu Zhou

Effect of physical activity interventions during pregnancy on maternal and neonatal outcomes

Dan Ho, Ming Sun

Investigation on training management of nurses of disaster nursing specialty in military hospital

Tingting Lv, Dongmei Dai, Ting Jia

The construction of the post setting scheme for specialist nurses in third-class comprehensive military hospitals

Zhanwang Yuan, Hong Zhao, Wenli Ge, Li Ma, Meng Bai

Status and risk factors of exclusive breastfeeding knowledge among late pregnancy women in third-grade class-A Hospital of Shaanxi Province

Jing Wang

Hospital-community extension nursing mode for ulcer pressure

Ni Ping, Yuan Li, Yang Xiao-Ling, Li Rao

Mobile Application for Glycemic Control of Diabetes Patients: A Systematic Review

Xue Yang, Jun-mei Xi, Na Lou, Qin Liao, Qing-wen Zhu

To explore the application effect of indwelling needle standard operating procedures for the quality control of nursing care in peripheral vein

Ping Huang, Ning Shen, Duo Ga, Wan-wan Liu

A study on the demands and status of the development of specialty nursing of 16 hospitals in Tibet

Ying Dian, Ting-ting He, Mingfang Yang, Fang Ma, Xue-qing Ma, Xue-cun Mi

Study on the construction of a positions competency model for ICU nurse specialist

Yuqiong Yang

To summarize the training methods and effect of ophthalmic nurses and explore the training mode of ophthalmic nurses which suitable for our country, so that to provide the basis for clinic practical

Ying Pan, Jie-hui Feng

The effect of ABCDEF delirium bundle in patients with mechanical ventilation

Fengxia Weng, Jianhua Wei, Linhua He, Fang-fang Huang, Xia Chen, Su Yang

The application of homemade urinal pocket with leg covers in urology stoma patients nursing

Xueqiong Zhu, Li-liang Zhou

Large error in the use of portable bladder scanners to measure bladder capacity during the intermittent catheterization of cirrhosis patients with ascites.

Lingqin Sun

To investigate the effect of risk factor assessment on the incidence and severity of chemotherapy-related nausea and vomiting (CINV) in patients with gastrointestinal cancer.

Yuli Hu, Ju-ling Xu, Shan-shan Liu

A meta-analysis of the Effect of Telemedicine on Glycosylated Hemoglobin and BMI in patients with Type 2 diabetes mellitus

Guanjun Ye, Yongqing Yan, Ying Chen, Chunying Wang, Jun Xu

Case report: a multidisciplinary approach to maintenance of a peripherally inserted central catheter in a patient with extensive exfoliative dermatitis

Min Liu, Xuhui Shen, Na Huang, Wenwen Tao, Lixiu Zhang, Jinlan Yao, Peiying Jin

Master of Nursing Specialists' learning experience in the simulation training of the Advanced Nursing Practice course
